

## Detergents

# LAMINSTATIK

No-rinse, neutral detergent with antistatic properties for day-to-day cleaning of parquet and wood floors.

**LAMINSTATIK** is a water-based, neutral product, specifically formulated for the daily cleaning of any type of parquet or wooden flooring. Its characteristic anti-static properties, with regular use, prevent the formation of static electricity which leads to a build up of dust on wooden floors and surfaces.

**LAMINSTATIK** is strong on dirt but gentle on wood surfaces. It will not damage wax or existing treatments and it also leaves behind a fresh, clean fragrance. When used in the concentrations listed, it leaves no residues and requires no rinsing. It is suitable for all types of material, whatever its absorption level, indoors and out.

### CHARACTERISTICS AND BENEFITS

- ✓ Specific for parquet flooring
- ✓ Ready to use
- ✓ Top-level cleaning action
- ✓ Antistatic properties: prevents a build-up of surface dust.
- ✓ Does not leave surface residues
- ✓ Needs no rinsing
- ✓ Will not damage wax or other existing treatments

### USES

This product **can be used** on both indoor and outdoor surfaces.  
**Suitable** for use on: Parquet and natural wood

### COVERAGE

700/1000 m<sup>2</sup>/l

### APPLICATION EQUIPMENT

Cloth, mop, single disc machine

### APPLICATION STEPS

#### Application

1. Before proceeding to wash the surface, it is advisable to clean away any surface residues, such as dust, debris and coarse dirt, using a broom or a vacuum cleaner. This product is extremely concentrated. Dilute one capful of product in 5 litres of clean water.
2. Wash the surface with traditional methods. If used at the right concentration, the product leaves no residues and therefore, it requires no rinsing.

#### Drying time

3. After washing the surface, wait for it to dry naturally.

#### Opening to floor traffic

4. Once the surface is dry, no further waiting time is necessary.

## Detergents

**LAMINSTATIK** - No-rinse, neutral detergent with antistatic properties for day-to-day cleaning of parquet and wood floors.

### INSTRUCTIONS AND GUIDELINES

- Do not use the product in high concentrations, this might cause build-ups.
- Before applying the product to the whole surface, it is advisable to test a small, unexposed area or unused piece to check its suitability for use.

### EQUIPMENT CLEANING

At the end of application, the equipment used can be washed using water.
