

# POLISHING CREAM

**Water-based cream polish for the treatment of back-marks and chemical aggressions on natural stone, and polished ceramic tiles**

**POLISHING CREAM** is a water-based cream suitable for marble, limestone, travertine, polished ceramic tiles. It restores and adds to the original shine of these materials and at the same time, it is able to effectively recover any surface lack of shine or aggression from chemical substances.

This product is used to restore or boost the shine on a surface when this is reduced or affected by wear, foot traffic or even when it is a matter of recovering back-marks, abrasions, stains, loss of shine and chemical aggression caused, for example, by acid spills on the surface. In case of restoring particularly deep aggressions on polished marble **POLISHING CREAM** is used after treating the surface with *HONING CREAM*, for more effective recovery of scratching and loss of shine.

As well as being able to restore shine, back-marks, scuffs and stains, **POLISHING CREAM** is also able to give treated surfaces excellent resistance to dirt and foot traffic, allowing them to preserve their original shine for longer. By sealing the surface against dirt, which cannot penetrate the surface, cleaning and maintenance become easier thanks to using this product.

**POLISHING CREAM** is a ready-to-use product that can be applied using handheld accessories, such as a white pad, or professional equipment, such as floor polishers. It is suitable for use on walls, floors, interiors and exteriors.

## CHARACTERISTICS AND BENEFITS

- ✓ **A versatile product, suitable for use on different types of material**
- ✓ Ready to use
- ✓ Adds excellent surface **resistance to dirt**
- ✓ **Recovers and preserves surface shine**
- ✓ **Lasting protection** against dirt and foot traffic
- ✓ It effectively **restores back-marks, scuffs and chemical aggression**
- ✓ **Water-based product**
- ✓ **Quick and easy application**
- ✓ **Wax free**

## USES

This product **can be used** on both indoor and outdoor surfaces.

**Suitable** for use on: Polished Cement-marble agglomerate, Marble-resin agglomerate, Quartz-resin agglomerate, Lapped porcelain stoneware, Limestone, Marble, Work tops/Tops in marble, Travertine

## COVERAGE

30/40 m<sup>2</sup>/kg

## APPLICATION EQUIPMENT

White pad, manual rotary brush, single disc machine

## POLISHING CREAM

Water-based cream polish for the treatment of back-marks and chemical aggressions on natural stone, and polished ceramic tiles

### APPLICATION STEPS

#### *Preparing and cleaning the surface*

1. Carefully clean the surface, making sure to remove any dust or dirt present.
2. Wait for the surface to be treated to be completely dry.
3. Any adjacent surfaces not being treated with the product must be protected.
4. Apply the product to surfaces with a temperature of between +5 and +40°C

#### *Application*

*Before applying the product to the whole surface, always test a small, unexposed area or unused piece to check its suitability for use.*

4. Shake the bottle well before use and pour a small amount of product onto the surface to be treated.
5. Start to work with the product by rubbing it on using the white pad, using concentric circular movements, making sure to treat the whole surface evenly.
6. The necessary time to obtain the desired results will vary according to the depth of the scratch or scuff to be restored. While working with the product, keep checking the surface to see the result achieved. Continue to work with the product until the required result has been achieved. In case of particularly deep scratching and corrosion, it may be necessary to use an orbital polisher with white disc.
7. After working the product, remove all residues and rinse with plenty of water.

#### *Drying time*

8. After carefully removing any residues and rinsing the surface with water, no further action or waiting time is necessary.

#### *Opening to floor traffic*

9. After carefully removing any residues and rinsing the surface with water, the floor can be opened for use.

### COMPLEMENTARY CLEANING AND MAINTENANCE PRODUCTS

After treatment with POLISHING CREAM, maintain the surface clean with the product most suitable Faber product, such as NEUTRAL CLEANER or FLOOR CLEANER or, to be chosen according to the surface characteristics.

### INSTRUCTIONS AND GUIDELINES

- Do not allow the product to dry during the application process. Frequently check consistency and add a few drops of water as needed to return the product to its creamy state.
- Never apply the product to a wet surface
- Do not apply the product to overly heated surfaces
- When applying to recently laid or grouted surfaces, wait for the adhesive or grout to cure completely.
- Do not use the product on buffed material, **unless specifically required.**
- Before applying the product to the whole surface, it is advisable to test a small, unexposed area or unused piece to check its suitability for use.

## POLISHING CREAM

Water-based cream polish for the treatment of back-marks and chemical aggressions on natural stone, and polished ceramic tiles

### EQUIPMENT CLEANING

At the end of application, the equipment used can be washed using water.

### SAFETY

When applying the product, always use suitable personal protective equipment and follow the instructions on the product safety data sheet with care.

### PHYSICAL AND TECHNICAL INFORMATION

Aspect:	Cream
Colour:	White
Odour:	Odourless
pH:	1,5 ± 0,5
Specific gravity at 20°C	N.D.

### STORAGE

Keep the container tightly closed and store in a cool, dry place.

### SHELF LIFE

36 months in the original, sealed packaging, stored in a cool, dry place.

### ACCIDENTAL SPILLS

Soak up the product with an absorbent material (paper towels, sawdust, vermiculite, etc.) and dispose of it in the most suitable waste container.

### PACKAGING

- 0.25 l bottles - 12 bottles per box

### HAZARD IDENTIFICATION

H314	Causes severe skin burns and eye damage.
P260	Do not breathe dust/fume/gas/mist/vapours/spray.
P280	Wear protective gloves/protective clothing/eye protection/face protection.
P301+P330+P331	IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
P303+P361+P353	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER/doctor
P405	Store locked up.
