

# FLOOR CLEANER

Neutral detergent for day-to-day cleaning of ceramics, porcelain stoneware and low-absorbent materials.

**FLOOR CLEANER** is a water-based pH-neutral detergent with a concentrated formula, specifically formulated and developed for daily cleaning and routine maintenance of all floors and general surfaces covered with materials with low or no absorbency.

**FLOOR CLEANER** is a product that contains no wax or other agents that would otherwise leave a patina or residues and which, with time would cause problems of opaqueness and trap dirt on treated surfaces. On the contrary, **FLOOR CLEANER** is a product that leaves no residues, guaranteeing a high level of surface cleaning, leaving a fresh, pleasant clean fragrance. When used at the right concentration, **FLOOR CLEANER** needs no rinsing.

**FLOOR CLEANER** is the recommended solution for daily cleaning of all surfaces, indoors and out, where absorption is low or non-existent.

## CHARACTERISTICS AND BENEFITS

- ✓ A versatile product, suitable for use on different types of material
- ✓ Ready to use
- ✓ Top-level cleaning action
- ✓ Effective against dirt
- ✓ Quick and easy application
- ✓ Delicate on grout widths
- ✓ Needs no rinsing.
- ✓ Does not leave surface residues or patina
- ✓ Leaves behind a pleasant clean fragrance.

## USES

This product **can be used** on both indoor and outdoor surfaces.

**Suitable** for use on: Cement marble agglomerate, Marble resin agglomerate, Quartz-resin agglomerate, Molten basalt, Craquelé ceramics, Glazed ceramics, Clinker, Granite, Lapped porcelain stoneware, Polished porcelain stoneware, Natural porcelain stoneware, Textured porcelain stoneware, Limestone, Marble, and Travertine.

## COVERAGE

900/1100 m<sup>2</sup>/l

## APPLICATION EQUIPMENT

Cloth, mop, single disc machine, wet and dry cleaner

FABERSURFACECARE.COM

## Detergents

**FLOOR CLEANER** -neutral detergent for day-to-day cleaning of ceramics, porcelain stoneware and low-absorbent materials.

## APPLICATION STEPS

### Application

1. Before proceeding to wash the surface, it is advisable to clean away any surface residues, such as dust, debris and coarse dirt, using a broom or a vacuum cleaner. This product is extremely concentrated. Dilute one capful of product in 5 litres of clean water in case of application to less absorbent surfaces, or 2-3 capful of product in 5 litres of clean water in case of use on natural stone or cotto.
2. Wash the surface with traditional methods. If used at the right concentration, the product leaves no residues and therefore, it requires no rinsing.

### Drying time

3. After washing the surface, wait for it to dry naturally.

### Opening to floor traffic

4. Once the surface is dry, no further waiting time is necessary.

## INSTRUCTIONS AND GUIDELINES

- Do not use the product in high concentrations, as this risks creating a build up.
- Before applying the product to the whole surface, it is advisable to test a small, unexposed area or unused piece to check its suitability for use.

## EQUIPMENT CLEANING

At the end of application, the equipment used can be washed using water.

## SAFETY

When applying the product, always use suitable personal protective equipment and carefully follow the instructions on the product safety data sheet.

## PHYSICAL AND TECHNICAL INFORMATION

Aspect:	Transparent liquid
Colour	Blue
Odour	Sweet
pH:	7,0 ± 0,5
Specific Gravity at 20°C	995 ± 5 g/l

## STORAGE

Keep the container tightly closed and store in a cool, dry place.

## SHELF LIFE

36 months in the original, sealed packaging, stored in a cool, dry place.

## ACCIDENTAL SPILLS

Soak up the product with an absorbent material (paper towels, sawdust, vermiculite, etc.) and dispose of it in the most suitable waste container.

## Detergents

**FLOOR CLEANER** - neutral detergent for day-to-day cleaning of ceramics, porcelain stoneware and low-absorbent materials.

## PACKAGING

- 1 l bottles - 12 bottles per box
- 5 l cans – 4 cans per box

## HAZARD IDENTIFICATION

H336	May cause drowsiness or dizziness
P101	If medical advice is needed, have product container or label at hand.
P102	Keep out of reach of children.
P261	Avoid breathing dust/fumes/gas/mist/vapours/spray.
P271	Use only outdoors or in a well-ventilated area.
P312	Call a POISON CENTER/ doctor/.../if you feel unwell.
P405	Store locked up.
P501	Dispose of contents/container in accordance with local/regional/national/international regulation

## Detergents

# TILE CLEANER

Slightly acidic detergent for deep cleaning of surfaces and to remove patinas and residues.

**TILE CLEANER** is a slightly acidic, water-based detergent for deep cleaning of different surfaces. The special formula allows the product to penetrate inside the pores and texture deep down. In this way, **TILE CLEANER** is able to dissolve and remove the dirt that has built up on the material, even in cases of old, stubborn residues to restore the original appearance of the material.

When used undiluted, **TILE CLEANER** serves to remove surface patinas from incorrect routine maintenance carried out using unsuitable cleaners and it is also active on patinas caused from grout and seals, whether cement or epoxy based. **TILE CLEANER** is recommended for use on all materials that are not acid sensitive.

### CHARACTERISTICS AND BENEFITS

- ✓ A versatile product, suitable for use on different types of material
- ✓ Ready to use
- ✓ Top-level cleaning action
- ✓ Dissolves and removes dirt, deep down.
- ✓ Gentle on materials and grout widths
- ✓ Efficiently removes surface patina
- ✓ Effective on grout residues, whether cement or epoxy based.

### USES

This product **can be used** on both indoor and outdoor surfaces.

**Suitable** for use on: Slate, Sandstone, Basaltina - Lava stone, Molten basalt, Glazed ceramics, Clinker, Cotto, Granite, Lapped porcelain stoneware, Polished porcelain stoneware, Natural porcelain stoneware, Textured porcelain stoneware, Reconstituted stone (Eco stone), Porphyry, Quarzite, Terracotta, Tuff

### COVERAGE

10/15 m<sup>2</sup>/l

### APPLICATION EQUIPMENT

Cloth, mop, single disc machine

### APPLICATION STEPS

#### *Preparing and cleaning the surface*

1. Before proceeding to wash the surface, it is advisable to clean away any surface residues, such as dust, debris and coarse dirt, using a broom or a vacuum cleaner.
2. Wait for the surface to be treated to be completely dry.
3. Any adjacent surfaces not being treated with the product must be protected.
4. Apply the product to surfaces with a temperature of between +5 and +40°C

## Detergents

**TILE CLEANER** - Slightly acidic detergent for deep cleaning of surfaces and to remove patinas and residues.

### Application

Before applying the product to the whole surface, always test a small, unexposed area or unused piece to check its suitability for use.

5. Dilute the product in clean water. Pour 1 part product into 2 or 3 parts water, according to the amount and the stubbornness of residues to be removed. When used to remove surface patina, used the product undiluted.

6. Begin to work the product over the surface, rubbing the surface with the tool of choice.

7. Leave the product to act for 10 - 20 minutes, continuing to wipe over the surface with your tool of choice to boost and aid the cleansing action of the product.

8. After working the product, remove all residues and rinse the whole floor with plenty of water. If the result is only partially achieved, repeat the application process following the same steps and if necessary, slightly increase the concentration of the product in water.

### Drying time

9. After carefully removing any residues and rinsing the surface with water, no further action or waiting time is necessary.

### Opening to floor traffic

10. After carefully removing any residues and rinsing the surface with water, the floor can be opened to foot traffic.

## COMPLEMENTARY CLEANING AND MAINTENANCE PRODUCTS

After treating with TILE CLEANER, keep the surface clean with the most suitable Faber product, such as NEUTRAL CLEANER or FLOOR CLEANER, to be selected according to the characteristics of the surface.

## INSTRUCTIONS AND GUIDELINES

- Never apply the product to a wet surface
- Do not apply the product to overly heated surfaces
- Never use on polished floors that are sensitive to acid, such as marble or limestone
- When applying to recently laid or grouted surfaces, wait for the adhesive or grout to cure completely.
- Never use in conjunction with other chemical products.
- Before applying the product to the whole surface, it is advisable to test a small, unexposed area or unused piece to check its suitability for use.

## EQUIPMENT CLEANING

At the end of application, the equipment used can be washed using water.

## SAFETY

When applying the product, always use suitable personal protective equipment and follow the instructions on the product safety data sheet with care.

## Detergents

**TILE CLEANER** - Slightly acidic detergent for deep cleaning of surfaces and to remove patinas and residues.

### PHYSICAL AND TECHNICAL INFORMATION

Aspect:	Transparent liquid
Colour:	Colourless
Odour:	Lemon
pH:	1.5 ± 0,5
Specific Gravity at 20°C	1010 ± 10 g/l

### STORAGE

Keep the container tightly closed and store in a cool, dry place.

### SHELF LIFE

36 months in the original, sealed packaging, stored in a cool, dry place.

### ACCIDENTAL SPILLS

Soak up the product with an absorbent material (paper towels, sawdust, vermiculite, etc.) and dispose of it in the most suitable waste container.

### PACKAGING

- 1 l bottles - 12 bottles per box
- 5 l cans – 4 cans per box

### HAZARD IDENTIFICATION

H314	Causes severe skin burns and eye damage.
P101	If medical advice is needed, have product container or label at hand.
P102	Keep out of reach of children.
P260	Do not breathe dust/fumes/gas/mist/vapours/spray.
P264	Wash hands thoroughly after handling.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER or doctor/physician.
