

Detergents

DEEP DEGREASER

Alkaline degreasing concentrated detergent for deep cleaning of stubborn and foot-traffic dirt

DEEP DEGREASER is a concentrated degreasing detergent extremely effective for deep cleaning of stubborn and foot-traffic dirt from all the surfaces. Thank to its extractive action the product melts and removes even the dirt caught by the micro-porosity of the surface.

DEEP DEGREASER is extremely versatile, the application is simple and fast, it is strong against dirt but gentle on the surfaces, so it can be used even on the most sensitive surfaces like polished marbles or polished ceramic or porcelain tiles.

DEEP DEGREASER can be used with traditional cleaning tools like brush and mops, or with mechanical tools like single-disc machines or floor-scrubbers

CHARACTERISTICS AND BENEFITS

- ✓ A versatile product, suitable for use on different types of material
- ✓ Ready to use
- ✓ Top-level cleaning action
- ✓ Dissolves and removes dirt, deep down.
- ✓ Gentle on materials and grout widths
- ✓ Efficiently removes surface patina
- ✓ Extremely effective on foot traffic dirt

USES

This product **can be used** on both indoor and outdoor surfaces.
Suitable for use on: all materials

COVERAGE

10/15 m²/l

APPLICATION EQUIPMENT

Cloth, mop, single disc machine

APPLICATION STEPS

Preparing and cleaning the surface

1. Before proceeding to wash the surface, it is advisable to clean away any surface residues, such as dust, debris and coarse dirt, using a broom or a vacuum cleaner.
2. Wait for the surface to be treated to be completely dry.
3. Any adjacent surfaces not being treated with the product must be protected.
4. Apply the product to surfaces with a temperature of between +5 and +40°C

Detergents - DEEP DEGREASER - Alkaline degreasing concentrated detergent for deep cleaning of stubborn and foot-traffic dirt

Application

Before applying the product to the whole surface, always test a small, unexposed area or unused piece to check its suitability for use.

5. Dilute the product in clean water. Pour 1 part product into 2 or 3 parts water, according to the amount and the stubbornness of residues to be removed. When used to remove surface patina, use the product undiluted. To remove extremely stubborn dirt the product can be used undiluted.

6. Begin to work the product over the surface, rubbing the surface with the tool of choice.

7. Leave the product to act for 10 - 20 minutes, continuing to wipe over the surface with your tool of choice to boost and aid the cleansing action of the product.

8. After working the product, remove all residues and rinse the whole floor with plenty of water. If the result is only partially achieved, repeat the application process following the same steps and if necessary, slightly increase the concentration of the product in water.

Drying time

9. After carefully removing any residues and rinsing the surface with water, no further action or waiting time is necessary.

Opening to floor traffic

10. After carefully removing any residues and rinsing the surface with water, the floor can be opened to foot traffic.

COMPLEMENTARY CLEANING AND MAINTENANCE PRODUCTS

After treating with DEEP DEGREASER, keep the surface clean with the most suitable Faber product, such as NEUTRAL CLEANER or FLOOR CLEANER, to be selected according to the characteristics of the surface.

INSTRUCTIONS AND GUIDELINES

- Never apply the product to a wet surface
- Do not apply the product to overly heated surfaces
- When applying to recently laid or grouted surfaces, wait for the adhesive or grout to cure completely.
- Never use in conjunction with other chemical products.
- Before applying the product to the whole surface, it is advisable to test a small, unexposed area or unused piece to check its suitability for use.

EQUIPMENT CLEANING

At the end of application, the equipment used can be washed using water.

SAFETY

When applying the product, always use suitable personal protective equipment and follow the instructions on the product safety data sheet with care.

FLOOR CLEANER

Neutral detergent for day-to-day cleaning of ceramics, porcelain stoneware and low-absorbent materials.

FLOOR CLEANER is a water-based pH-neutral detergent with a concentrated formula, specifically formulated and developed for daily cleaning and routine maintenance of all floors and general surfaces covered with materials with low or no absorbency.

FLOOR CLEANER is a product that contains no wax or other agents that would otherwise leave a patina or residues and which, with time would cause problems of opaqueness and trap dirt on treated surfaces. On the contrary, **FLOOR CLEANER** is a product that leaves no residues, guaranteeing a high level of surface cleaning, leaving a fresh, pleasant clean fragrance. When used at the right concentration, **FLOOR CLEANER** needs no rinsing.

FLOOR CLEANER is the recommended solution for daily cleaning of all surfaces, indoors and out, where absorption is low or non-existent.

CHARACTERISTICS AND BENEFITS

- ✓ A versatile product, suitable for use on different types of material
- ✓ Ready to use
- ✓ Top-level cleaning action
- ✓ Effective against dirt
- ✓ Quick and easy application
- ✓ Delicate on grout widths
- ✓ Needs no rinsing.
- ✓ Does not leave surface residues or patina
- ✓ Leaves behind a pleasant clean fragrance.

USES

This product **can be used** on both indoor and outdoor surfaces.

Suitable for use on: Cement marble agglomerate, Marble resin agglomerate, Quartz-resin agglomerate, Molten basalt, Craquelé ceramics, Glazed ceramics, Clinker, Granite, Lapped porcelain stoneware, Polished porcelain stoneware, Natural porcelain stoneware, Textured porcelain stoneware, Limestone, Marble, and Travertine.

COVERAGE

900/1100 m²/l

APPLICATION EQUIPMENT

Cloth, mop, single disc machine, wet and dry cleaner

FABERSURFACECARE.COM

Detergents

FLOOR CLEANER -neutral detergent for day-to-day cleaning of ceramics, porcelain stoneware and low-absorbent materials.

APPLICATION STEPS

Application

1. Before proceeding to wash the surface, it is advisable to clean away any surface residues, such as dust, debris and coarse dirt, using a broom or a vacuum cleaner. This product is extremely concentrated. Dilute one capful of product in 5 litres of clean water in case of application to less absorbent surfaces, or 2-3 capful of product in 5 litres of clean water in case of use on natural stone or cotto.
2. Wash the surface with traditional methods. If used at the right concentration, the product leaves no residues and therefore, it requires no rinsing.

Drying time

3. After washing the surface, wait for it to dry naturally.

Opening to floor traffic

4. Once the surface is dry, no further waiting time is necessary.

INSTRUCTIONS AND GUIDELINES

- Do not use the product in high concentrations, as this risks creating a build up.
- Before applying the product to the whole surface, it is advisable to test a small, unexposed area or unused piece to check its suitability for use.

EQUIPMENT CLEANING

At the end of application, the equipment used can be washed using water.

SAFETY

When applying the product, always use suitable personal protective equipment and carefully follow the instructions on the product safety data sheet.
